Mug heat press machine instructions

Fahrenheit and Celsius switching method:

Press “▲” and “▼” buttons at the same time. About 10 seconds later, it will show P-5. After that, enter 111.

Then press “SET” button and it will show C-F, which means the temperature mode. We can adjust this mode according to our own habits.

Press “▲” button to Fahrenheit.

Press “▼” button to Celsius.

The temperature and time adjustment:

Turn on the power switch.

1. Press "SET" button for the first time and it will show P-1, which means the initial temperature.
2. Press "SET" button for the second time and it will show P-2, which means the highest pressing temperature.
3. Press "SET" button for the third time and it will show P-3, which means the pressing time.
4. Press "SET" for the fourth time and it will show P-4, which means that the machine returns to the status of heating up.
